Hickmans ammonia filter filename 0=140062 - 7-9-2015 - COMPLIANCE - AQ REPORTS - - - - -  
.pdf

I have requested the ammonia monitoring info from ADEQ and the MCAQD. I have just been told that a CD is being mailed to me from ADEQ, but a couple of ammonia air monitoring reports were emailed, and these were the air monitoring conducted by Hickman's, and not monitoring conducted by ADEQ or MCAQD. I don't know if what you received from these agencies was their own, or conducted by Hickman's, but see the attached document.

Thanks. We've been gathering all the available air monitoring data from the county and state. Trying to move the decision-making process in your petition along.

Just drive by the Arlington facilities, where you'll see the barns, and the rotary dryer that operates there. The place is huge, and there is usually a strong ammonia odor there. The main road takes you right by the facility. They have been majorly cleaning up around the Arlington facility for two weeks now, BTW. Then go west to the Arlington Elementary School. You'll pass by some residential areas as you do that.

The Hickman's Tonopah facility is just blocks from the center of the little town. Not much there, but you'll see how proximate the facility is to the rest of the businesses and homes. There is a big RV park that has a huge winter population there also. If you go further down the road west of the Tonopah facility, you'll see a few rural homes.

Hey Steve - I am going to drive through the areas around the Hickmans Arlington and tonopah facilities tomorrow. Anywhere in particular you suggest visiting?
